COVER STYL'

COVER STYL' SMART INTERIOR DESIGN

Cover Styl' is a self-adhesive vinyl designed to realistically recreate the look of natural, more expensive materials, appropriate for interior decoration or refurbishment projects.

New life can be brought into furniture and interior surfaces with Cover Styl', as the self-adhesive vinyl offers endless refurbishment opportunities for walls, facades, doors, columns, bars, offices, restaurants, lobbies, bathrooms, hospitals, banks and conference rooms.

The image shows a colorful interior space, possibly a cafe or restaurant. The walls are painted in various bright colors: a large section on the left is pink, a vertical stripe is lime green, and the right wall is orange. A white brick wall is visible on the far right, partially obscured by a jagged, torn-paper-like edge. In the center, a doorway leads to another room with yellow and red walls. The foreground features several round tables with black metal chairs. A black door with a floral pattern is visible on the right side of the doorway. The text "SOLID COLOURS" is overlaid in white, sans-serif font on the left side of the image.

L2 - SOLID COLOUR

A close-up photograph of a perfume bottle. The bottle is rectangular and appears to be made of clear or light-colored glass, containing a yellowish-gold liquid. A grey, rectangular label is attached to the front of the bottle. The label has the text "A LITTLE PRIVACY" printed on it in a clean, sans-serif font. The word "A LITTLE" is in a smaller font size than "PRIVACY". The bottle is set against a dark, textured background, possibly a wooden surface. The lighting is soft, highlighting the bottle's edges and the label.
